Nursing Strike — Revenue Impact

Board Update · April 2026
Source: Date-wise Revenue Report Mar 2026 vs 2025

● March 8–13, 2026 · 6-day strike

STRIKE WEEK LOSS (MAR 8–13)

₹0.97 Cr

Actual ₹6.43 Cr · Expected ₹7.40 Cr

Thu Mar 12 worst day at −41.5%. Mon & Fri above benchmark — deferred demand surge & end-of-strike recovery.

POST-STRIKE OVERHANG (MAR 14–20)

₹2.94 Cr

Actual ₹6.25 Cr · Expected ₹9.19 Cr

75% of total 2-week impact. Disrupted elective pipeline & slow IP census rebuild not immediately recovered.

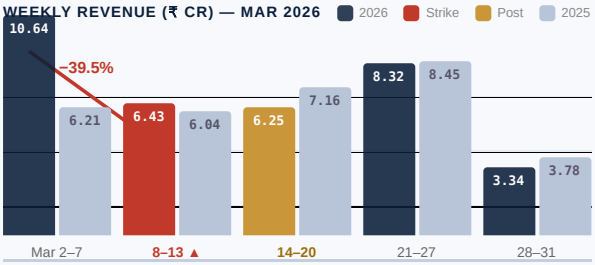
COMBINED 2-WEEK REVENUE LOSS

−₹3.90 Cr

Strike ₹0.97 Cr + Overhang ₹2.94 Cr

Revenue foregone due to strike and its downstream disruption. Translates directly to margin pressure — this is unrecovered top line.

WEEKLY REVENUE (₹ CR) — MAR 2026



Benchmark method: DoW-normalised avg 2026 collections per weekday from clean non-strike weeks (Mar 21–31). Direct YoY avoided — 2025/26 shifts by one calendar day.

STRIKE WEEK DAY-BY-DAY (MAR 8–13, 2026)

★ Worst day. Green = above benchmark: Mon deferred surge; Fri end-of-strike recovery. IP bore primary burden; OP resilient throughout.

⚡ IP bore the brunt; OP held

Inpatient collections fell sharply due to direct nursing-ward dependency. Outpatient remained comparatively resilient, suggesting walk-in demand was largely unaffected.

📉 Post-strike hangover 3× the direct loss

Mar 14–20 accounts for ₹2.94 Cr — 75% of total impact — from disrupted elective pipelines and slow inpatient census rebuild persisting after the strike ended.

💸 ₹3.90 Cr unrecovered revenue

Combined direct strike loss (₹0.97 Cr) and post-strike overhang (₹2.94 Cr) represent foregone top-line. At typical hospital margins this translates to significant EBITDA impact for the month.

All figures Indian Rupees. DoW benchmark: avg 2026 revenue per weekday, clean weeks Mar 21–31. Full month Mar 2026: ₹36.03 Cr vs ₹31.86 Cr in 2025 (+13.1% YoY).
