REF: **Commercial Proposal for Voyon Folks HCMS**

Dear Mr. Suresh,

We, at Voyon Technology Services, appreciate your interest shown in us and invite us to submit a proposal to deploy "**Voyon Folks** ", our Cloud based Human Capital Management System.

This proposal is prepared to provide you with a well-designed and user-friendly cloud-based Voyon Folks HCMS Product on an **On-Premises Model**. The proposal covers over **2000+** employees and includes a comprehensive package with both core and enterprise services as per your selection. Our proposal includes the deployment of the selected Services (Modules) of the Voyon Folks System proposed in this document, Product features, Product subscription details, installation, Implementation, Training, and post Implementation support details.

For any clarification regarding the proposal, please feel free to contact us. A promotional discount is offered to you. We look forward to providing you with a highly configurable HCM Product & deploying the same as soon as possible. We welcome your comments and suggestions. Please feel free to contact us if you need any further information.

We look forward to your kind response.

Regards,
Swaroop Krishna

ABOUT THE COMPANY

The name **Voyon** is derived from the French word '**Voyons'**, the English equivalent for '**See'**. Voyon is about visibility to the most granular level possible. Voyon delivers cloud-based solutions enabling organizations to derive the maximum value from the information available from multiple data sources, leading to informed decision making.

Founded by a team of professionals with a solid base in IT and Management, Voyon is a company on the fast track, offering advanced IT solutions and services to clients belonging to various industry verticals. Leveraging world class talent, mature processes, and proven methodologies, and taking full advantage of emerging technology trends, Voyon develops solutions that enable organizations to achieve greater efficiency at significantly lower costs.

Our mission is to leverage emerging technologies to deliver cost effective solutions that address specific requirements of our clients, and to create true business value by helping them always stay ahead of the competition.

Our vision is to become the go-to vendor for all IT solutions and services that our clients require by ensuring absolute commitment to quality, timely delivery, and cost containment, and thus to help them stay competitive in the marketplace.

VOYON FOLKS HCMS

Voyon Folks is a single, cloud-based solution for human resource planning, analysis, and execution. Our solution helps to operate with agility and efficiency enabling, organizations to be ready for whatever comes next. Unlike rigid HR systems or point solutions, only Voyon Folks delivers the skills-based HR management foundation and continuously innovates to enable customer success as the impact of technology, alternative work arrangements, and employee expectations evolve.

WHY VOYON FOLKS HCMS

Voyon Folks Human Capital Management system is designed based on the best HR practices from various industries. Its User-Friendly design makes the product and services more efficient and provides a good user experience. The Product, which is developed on advanced technology platforms, can be deployed on cloud or on premises depending on the choice of the client.

Moreover, we provide Docker installations which enable more efficient use of system resources, enables faster software delivery cycles and application portability.

VOYON FOLKS SERVICES (MODULES) AVAILABLE

The Services can be separated into two, Standard/Core Services and Additional Services.

➢ CORE SERVICES

➢ ENTERPRISES SERVICES

Notes: On Premises Installation

- ***All amounts/figures are in INR and exclusive of taxes, if any.***
- *An annual 5% increase will be applied to the existing AMC charges.*
- All invoices raised against the defined payment milestones must be cleared within one week from the date of invoice.
- Any delay in payment beyond the stipulated time frame will attract applicable bank interest charges for the overdue period.
- *The application is exclusively designed to be hosted on Microsoft Azure, and the proposal does not include details regarding hosting and associated charges.*
- *For "On Premise" deployment, the necessary cloud space must be arranged by the client. If the cloud space is to be arranged by Voyon, it will be charged separately.*
- *Voyon Folks is optimized for Microsoft Azure. Performance is not guaranteed on on-premises data centres. Customers will be advised to switch to Azure if performance issues arise.*
- *Enhancements or additions beyond standard features of Voyon Folks, will be estimated and charged separately.*
- *Voyon Folks fetches attendance data directly from the biometric device database. Direct or API integration is not included.*
- *This proposal is valid only for one month.*
- *customization that doesn't involve any major changes can be accommodated for 1 year without any additional charges.*

PROJECT EXECUTION APPROACH

Once both the parties agree upon the action points, the following approach will be taken:

1. Voyon will contact the project sponsor and fix up the project kick-off meeting.
2. Conduct the kickoff meeting – Scope, Project Plan, Risks, User Teams Review
3. Installation, Product license registration and initial set up.
4. Master Data migration - Master data is collected in the format given by Voyon.
5. Business Rules discussion & SRS sign-off
6. Business Rule Configuration
7. User training - Voyon will provide onsite/online Training and will be provided with POC contact details for direct contact.
8. Trial, Parallel, Live Run of licensed Services
9. Sign-Off. Any additional enhancements outside the project's scope will be documented and estimated separately post sign-off.
10. Project is moved to support division under AMC

TERMS AND CONDITIONS

a) **Additional Scope:**
Voyon Folks is a standard HCMS product. Services outside its scope require a separate proposal. If additional scope arises, Voyon will prioritize new requirements based on client needs, will discuss mutually the additional effort needed, and quote **INR 10,000 per man-day**. Voyon reserves the right to decide on customizations.

Customization:

- Customization requirements may be collected as a 'Wish list' from the Clients/Partners/ Consultants/ well-wishers.
- Statutory requirements will be incorporated promptly and released free for all AMC clients.
- Value-adding requirements will be incorporated in new versions. Minor releases will be free for AMC clients; major releases will be available at a reduced price. Minor releases fix bugs or enhance features; major releases add new services, features, design, and architecture.
- Customer-specific or urgent features will be customized at an additional charge. These requests will be forwarded to sales or partners. Voyon reserves the right to decide on customizations.
- If customization is approved, Voyon will proceed iteratively, gathering timely feedback to deliver the best solution.

Voyon Folks
